---

1. The petition box kept at the Dewan's Office, Bangalore, will be cleared at 12 noon every day by the Chief Secretary, and in his absence from Bangalore by the Under-Secretary.

2. Petitioners will be heard at the Office of the Dewan at 3 P. M. on every Thursday.

By Order,
T. ANANDA ROW,
Chief Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st April 1893.

READ :—

Correspondence ending with letter No. 922, dated 5th January 1893, from the Deputy Commissioner, Mysore District, relating to the levy of water-rate on certain lands in the Inam village of Turkarhundi in Tirumakudlu-Narsipur Taluk.

No. 16512-21—R. 2029, DATED, BANGALORE, 1ST APRIL 1893.

ORDER THEREON.—The Inamdar is not liable to pay any water-rate in respect of lands which, at the time of the grant of the Inam, were actually wet and irrigated from the same source as now. The correspondence shows a confusion in the minds of some local officers between "Water-rate" and "Irrigation Cess." A "Water-rate" is a levy of the nature of a land assessment, and the wet assessment may be regarded as composed of the ordinary dry assessment plus a water-rate for irrigation supplied from a particular existing source. If the grant of the Inam alienated the wet assessment on certain lands under a particular source of irrigation and the same lands are now reasonably identifiable, the mere fact that the same source of irrigation has recently been repaired by the State cannot give the Government the right to levy a "water-rate" from such lands, for such a levy would amount to a resumption of part of the originally alienated Revenue. The Inamdar of course cannot claim exemption from water-rate in respect of lands newly converted into "wet" or old wet lands brought under a *new* source of irrigation established by Government.

2. If the old source of irrigation had fallen into disuse and consequently the Inamdar's wet lands under it could not be and had not been all irrigated and if the work is now repaired by Government, the Inamdar must, under existing rules, pay a share of the cost of such repair, proportionate to the extent of the benefit accruing to him thereby.
